## COGNEX

## DataMan ${ }^{\circledR} 260$ Series Quick Reference Guide

2024 January 04 Revision: 24.1.0.2

## Precautions

To reduce the risk of injury or equipment damage, observe the following precautions when you install the Cognex product:

- This device requires the use of an LPS or NEC class 2 power supply (nonPoE device) or the use of a PoE Class 1 (PoE device).
- Do not connect or disconnect this device from the I/O module or 15-pin USB adapter cable when the I/O module or adapter cable is connected to a PC.
- Route cables and wires away from high-current wiring or high-voltage power sources to reduce the risk of damage or malfunction from the following causes: over-voltage, line noise, electrostatic discharge (ESD), power surges, or other irregularities in the power supply.
- Changes or modifications not expressly approved by the party responsible for regulatory compliance could void the user's authority to operate the equipment.
- Ensure that the cable bend radius begins at least six inches from the connector. Cable shielding can be degraded or cables can be damaged or wear out faster if a service loop or bend radius is tighter than 10X the cable diameter.
- This device should be used in accordance with the instructions in this manual.
- All specifications are for reference purposes only and can change without notice.
- This product is intended for industrial use in automated manufacturing or similar applications.
- The safety of any system incorporating this product is the responsibility of the assembler of the system.
- This product does not contain user-serviceable parts. Do not make electrical or mechanical modifications to product components. Unauthorized modifications can void your warranty.

## Symbols

The following symbols indicate safety precautions and supplemental information:

$\Delta$
WARNING: This symbol indicates a hazard that could cause death, serious personal injury or electrical shock.

CAUTION: This symbol indicates a hazard that could result in property damage.

Note: This symbol indicates additional information about a subject.

Tip: This symbol indicates suggestions and shortcuts that might not otherwise be apparent.

## Product Overview

| 12 | Power, I/O and RS-232 connector |
| :--- | :--- |
| 13 | Ethernet connector |

Note: *Use only one set of mounting holes (either 3 OR 4) for mounting.

Note: The five status LEDs together also function as a peak meter using an orange light.

## DataMan 260 Accessories

LENS OPTIONS, COVERS, ILLUMINATIONS AND FILTERS

## DataMan 260 Readers with Side Read Mirror

The following table shows the Field of View (FoV) widths of DM260 with 6.2 mm lens focused to 190 mm at various distances.

| Device | 1D min. code | Distance in mm | Width in mm |
| :---: | :---: | :---: | :---: |
| DM260 | 10 MIL | 196 | 158 |
|  | 13 MIL | 261 | 205 |
|  | 15 MIL | 305 | 237 |
|  | 18 MIL | 370 | 285 |
|  | 20 MIL | 414 | 316 |
|  |  |  |  |

The following table shows the Field of View (FoV) widths of DM262 with 6.2 mm lens focused to 190 mm at various distances.

| Device | 1D min. code | Distance in mm | Width in mm |
| :---: | :---: | :---: | :---: |
| DM262 | 10 MIL | 327 | 269 |
|  | 13 MIL | 431 | 350 |
|  | 15 MIL | 501 | 404 |
|  | 18 MIL | 605 | 485 |
|  | 20 MIL | 675 | 539 |

## Connecting the Reader

Perform the following steps:

1. Mount the reader.
2. Connect the Ethernet cable (CCB-84901-2001-05) either to a computer or a switch.
3. Connect the breakout cable (CCBL-05-01).

For information on the pinout and wire colors, see section Connections, Optics and Lighting in the DataMan 260 Reference Manual.

## Mounting

Mounting the DataMan 260 at a slight angle $\left(15^{\circ}\right)$ can reduce reflections and improve reader performance.

Use the set of mounting holes on the rear part to mount the DataMan reader.

## Connect the Ethernet Cable

1. Connect the Ethernet cable's M12 connector to the reader ENET connector.
2. Connect the Ethernet cable's RJ-45 connector to a switch/router or PC, as applicable.

## Connect the Breakout Cable

Note: You can clip unused wires short or use a tie made of non-conductive material to tie them back.1. Verify that the 24 V DC power supply is unplugged and not receiving power.
2. Attach the Breakout cable's +24VDC and GROUND to the corresponding terminals on the power supply.

$1!$
CAUTION: Never connect voltages other than 24 V DC. Always observe the polarity shown.
3. Attach the Breakout cable's M12 connector to the DataMan 260 reader's 24VDC connector.
4. Restore power to the 24 V DC power supply and turn it on if necessary.

## Installation

Installation procedures are detailed in the DataMan 260 Reference Manual, which is installed with the DataMan Setup Tool. The DataMan Setup Tool is available from the DataMan support site: http://www.cognex.com/support/dataman.

To access documentation, open the Windows Start menu, select All Programs > Cognex > DataMan Software vx.x.x > Documentation.

## Note:

- Cables are sold separately.

0

- If a standard component is missing or damaged, immediately contact your Cognex Authorized Service Provider (ASP) or Cognex Technical Support.

CAUTION: All cable connectors are "keyed" to fit the connectors on the DataMan system; do not force the connectors or damage may occur.

1. After installing the software, connect the DataMan 260 Series reader to your PC.
2. Launch the DataMan Setup Tool and click Refresh.
3. Select your DataMan 260 reader from the list and click Connect.

## DataMan 260 Specifications

| Specification | $\quad$ DataMan 260 Series Reader |
| :--- | :--- |
| Weight | 142 g |
| Operating <br> Temperature | $0^{\circ} \mathrm{C}-+40^{\circ} \mathrm{C}\left(+32^{\circ} \mathrm{F}-+104^{\circ} \mathrm{F}\right)$ |
| Storage <br> Temperature | $-10^{\circ} \mathrm{C}-+60^{\circ} \mathrm{C}\left(+14^{\circ} \mathrm{F}-+140^{\circ} \mathrm{F}\right)$ |
| Maximum <br> Humidity | $<95 \%$ (non-condensing) |
| Environmental | IP65 |
| Shock and <br> Vibration | IEC 60068-2-27: 1000 shocks, semi-sinusoidal, 11g, 10ms <br> IEC 60068-2-6: vibration test in each of the three main axis for 2 hours @ 10 Gs (10 to 500 <br> Hz at 100m/s2 / 15mm) |
| LED Safety | IEC 62471: Exempt risk group, no further labeling is required. |
| RS-232 | RxD, TxD according to TIA/EIA-232-F |
| Codes | 1-D barcodes: Codabar, Code 39, Code 128, and Code 93,Code 25, Interleaved 2 of 5, <br> Pharma, GS1 DataBar, Postal, Code UPC/EAN/JAN, MSI <br> 2-D barcodes: Data Matrix ${ }^{\text {TM }}$ (IDMax and IDQuick: ECC 0, 50, 80, 100, 140, and 200) QR <br> Code and microQR Code, RSS/CS, PDF 417, MicroPDF 417, AztecCode, DotCode, <br> MaxiCode |

| Discrete I/O <br> operating <br> Limits | HS Output 0, 1, 2, 3 | $\mathrm{I}_{\text {MAX }}$ | @ 24 VDC | 50 mA |
| :---: | :---: | :---: | :---: | :---: |
|  |  | $\mathrm{R}_{\text {MAX }}$ | @ 12 VDC | $150 \Omega$ |
|  |  |  | @ 24 VDC | $470 \Omega$ |
|  | Input 0 (Trigger) | $\mathrm{V}_{\mathrm{IH}}$ | $\pm 15- \pm 25 \mathrm{~V}$ |  |
|  | Input 1 | $V_{\text {IL }}$ | $0- \pm 5 \mathrm{~V}$ |  |
|  |  | $\mathrm{I}_{\text {TYP }}$ | @ 12 VDC | 2.0 mA |
|  |  |  | @ 24 VDC | 4.2 mA |
| Power Supply <br> Requirements | - PoE powered: Class 1 PoE supply, maximum 3.84 W , or <br> - External power supply (no PoE): +24 VDC $+/-10 \%$ ( 1 A maximum, 5 W average) <br> Supplied by LPS or NEC class 2 only |  |  |  |
| Power <br> Consumption | <3.84 W (PoE Class 1) <br> $<5$ W (average, externally powered at +24 V ) |  |  |  |

## DataMan 260 Series Imager Specifications

| Specification | DataMan 260 Imager | DataMan 262 Imager |
| :--- | :--- | :--- |
| Image Sensor | $1 / 3$ inch CMOS | $1 / 3$ inch CMOS |
| Image Sensor <br> Properties | $4.51 \mathrm{~mm} \times 2.88 \mathrm{~mm}(\mathrm{~W} \times \mathrm{H}), 6.0 \mu \mathrm{~m}$ <br> square pixels | $4.8 \mathrm{~mm} \times 3.6 \mathrm{~mm}(\mathrm{~W} \times \mathrm{H}), 3.75 \mu \mathrm{~m}$ <br> square pixels |
| Image Resolution <br> (pixels) | $752 \times 480$ | $1280 \times 960$ |

| Specification | DataMan $\mathbf{2 6 0}$ Imager | DataMan $\mathbf{2 6 2}$ Imager |
| :--- | :--- | :--- |
| Lens Type | S-mount $6.2 \mathrm{~mm} \mathrm{~F}: 5$ (with optional liquid lens) with IR blocking filter <br> S-mount $16 \mathrm{~mm} \mathrm{~F}: 7$ (with optional liquid lens) with IR blocking filter |  |

## LED Wavelengths

The following table shows LED types and the related wavelengths:

| LED | $\lambda$ [nm] |
| :--- | :--- |
| RED | 617 |
| RED HPIL | 617 |
| BLUE | 470 |
| WHITE | 6500 K (Color Temperature) |
| IR | 850 |
| IR HPIL | 850 |
| UV | 365 |

## Regulations/Conformity

The DataMan 260 has Regulatory Models 1AA5, 1ABD, 1AA0, 1ABF and meets or exceeds the requirements of all applicable standards organizations for safe operation. However, as with any electrical equipment, the best way to ensure safe operation is to operate them according to the agency guidelines that follow. Please read these guidelines carefully before using your device.

(1)
Note: For the most current CE declaration and regulatory conformity information, see the Cognex support site: cognex.com/support.

## For European Community Users

Cognex complies with Directive 2012/19/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 4 July 2012 on waste electrical and electronic equipment (WEEE).

This product has required the extraction and use of natural resources for its production. It may contain hazardous substances that could impact health and the environment, if not properly disposed.

In order to avoid the dissemination of those substances in our environment and to diminish the pressure on the natural resources, we encourage you to use the appropriate take-back systems for product disposal. Those systems will reuse or recycle most of the materials of the product you are disposing in a sound way.
 The crossed out wheeled bin symbol informs you that the product should not be disposed of along with municipal waste and invites you to use the appropriate separate take-back systems for product disposal.

If you need more information on the collection, reuse, and recycling systems, please contact your local or regional waste administration.

You may also contact your supplier for more information on the environmental performance of this product.

## 中国大陆RoHS（Information for China RoHS Compliance）

根据中国大陆 电子信息产品污染控制管理办法》（也称为中国大陆RoHS），以下部份列出了本产品中可能包含的有 毒有害物质或元素的名称和含量。

Table of toxic and hazardous substances／elements and their content，as required by China＇s management methods for controlling pollution by electronic information products．

|  | Hazardous Substances 有害物质 |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Part Name部件名称 | $\begin{aligned} & \hline \text { Lead (Pb) } \\ & \text { 铅 } \end{aligned}$ | Mercury （ Hg ）永 | Cadmium （Cd） <br> 镉 | Hexavalent Chromium （ $\mathrm{Cr}(\mathrm{VI})$ ）六价铬 | Polybrominated biphenyls（PBB）多溴联苯 | Polybrominated diphenyl ethers （PBDE）多溴二苯醚 |
| Regulatory Models 1AA5，1ABD，1AA0， 1ABF | X | O | O | O | 0 | O |
| This table is prepared in accordance with the provisions of $\mathrm{SJ} / \mathrm{T} 11364$.这个标签是根据SJ／T 11364 的规定准备的。 <br> O：Indicates that said hazardous substance contained in all of the homogeneous materials for this part is below the limit requirement of GB／T26572－2011． <br> 表示本部件所有均质材料中含有的有害物质低于 GB／T26572－2011的限量要求。 <br> X：Indicates that said hazardous substance contained in at least one of the homogeneous materials used for this part is above the limit requirement of GB／T26572－2011． <br> 表示用于本部件的至少一种均质材料中所含的危害物质超过 GB／T26572－2011的限制要求。 |  |  |  |  |  |  |
